The Kill Order James Dashner,2013-12-05 When sun flares hit the Earth intense heat toxic radiation and flooding followed wiping out much of the human race Those who survived live in basic communities in the mountains hunting for food For Mark and his friends surviving is difficult and then an enemy arrives infecting people with a highly contagious virus Thousands die and the virus is spreading Worse it s mutating and people are going crazy It s up to Mark and his friends to find the enemy and a cure before the Flare infects them all *The Maze Runner Files* James Dashner,2013-11-07 *The Maze Runner Files* is a 50 page collection of classified records and concealed information from the world of the New York Times bestselling series A must for any fan of *The Maze Runner* [Targeted Killings](#) Claire Finkelstein,Jens David Ohlin,Andrew Altman,2012-03-01 The war on terror is remaking conventional warfare The protracted battle against a non state organization the demise of the confinement of hostilities to an identifiable battlefield the extensive involvement of civilian combatants and the development of new and more precise military technologies have all conspired to require a rethinking of the law and morality of war Just war theory as traditionally articulated seems ill suited to justify many of the practices of the war on terror The raid against Osama Bin Laden s Pakistani compound was the highest profile example of this strategy but the issues raised by this technique cast a far broader net every week the U S military and CIA launch remotely piloted drones to track suspected terrorists in hopes of launching a missile strike against them In addition to the public condemnation that these attacks have generated in some countries the legal and moral basis for the use of this technique is problematic Is the U S government correct that nations attacked by terrorists have the right to respond in self defense by targeting specific terrorists for summary killing Is there a limit to who can legitimately be placed on the list There is also widespread disagreement about whether suspected terrorists should be considered combatants subject to the risk of lawful killing under the laws of war or civilians protected by international humanitarian law Complicating the moral and legal calculus is the fact that innocent bystanders are often killed or injured in these attacks This book addresses these issues Featuring chapters by an unrivalled set of experts it discusses all aspects of targeted killing making it unmissable reading for anyone interested in the implications of this practice [To Kill a Mockingbird](#) Harper Lee,2015 Shoot all the bluejays you want if you can hit em but remember it s a sin to kill a mockingbird Meet Scout the narrator of this book Her story is one of Deep South summers fights at school and playing in the street The spooky house of her mysterious neighbour Boo Radley sags dark and forbidding nearby Her brother Jem and her friend Dill want to make Boo come outside Her story is about justice When Scout s father a lawyer agrees to defend a black man against an accusation by a white girl he must battle the prejudice of the whole town It s about imagination not just the kind you need for childhood games Because you never really know a man until you stand in his shoes and walk around in them *Vintage Children s Classics* is a twenty first century classics list aimed at 8 12 year olds and the adults in their lives Discover timeless favourites from *The Jungle Book* and *Alice s Adventures in Wonderland* to modern

Hersh,2016-04-12 In 2011 an elite group of US Navy SEALs stormed an enclosure in the Pakistani city of Abbottabad and killed Osama bin Laden the man the United States had begun chasing before the devastating attacks of 9/11 The news did much to boost President Obama's first term and played a major part in his reelection victory of the following year But much of the story of that night as presented to the world was incomplete or a lie

The evidence of what actually went on remains hidden At the same time the full story of the United States involvement in the Syrian civil war has been kept behind a diplomatic curtain concealed by doublespeak It is a policy of obfuscation that has compelled the White House to turn a blind eye to Turkey s involvement in supporting ISIS and its predecessors in Syria This investigation which began as a series of essays in the London Review of Books has ignited a firestorm of controversy in the world media In his introduction Hersh asks what will be the legacy of Obama s time in office Was it an era of change we can believe in or a season of lies and compromises that continued George W Bush s misconceived War on Terror How did he lose the confidence of the general in charge of America s forces who acted in direct contradiction to the White House What else do we not know
